

Submission Deadline: Thursday, September 10, 2009

Intermountain Contractor magazine is seeking outstanding construction projects located in Utah and Idaho for our Best of 2009 competition. Winners will be featured in the December issue of *Intermountain Contractor*, and will be presented with an award during the 6th Annual Best of 2009 event in December.

CRITERIA/ JUDGING

The project must be at least 90 percent complete by the end of 2009. Projects completed before September 1, 2008 are not eligible. There is no entry fee.

Winners will be selected by a panel of judges from the industry, based on the architectural design, construction, innovation and overall excellence of the project. Judges reserve the right to eliminate projects not meeting the entry requirements. Judges can opt to select no winner for a category if not enough submittals are received.

You can submit as many projects as you want, and each project can be submitted in more than one category (it is recommended that you tailor the submission to that category – i.e. a steel entry should include info and images related to steel).

ENTRY REQUIREMENTS

- 1) Cover Page – Please include a cover page with name of project, categories, submitting company, and your contact information.
- 2) A Project Description – please briefly describe in a few paragraphs the quality, innovation, challenges overcome, contribution to the industry, and overall excellence of your design and construction, related to the category you are submitting in.
- 3) Project Team – Please list your project team, including owner, architect, GC, Engineers and subcontractors.
- 4) Images – Please include several good quality hard copies for judging, and include a CD with images for publication in the magazine. Make sure your project name is written on the disk in case it is separated from your entry!
- 5) Binders – If you submit a project in more than one category, a separate packet for each is recommended, but not required.

CATEGORIES

You may submit your project in multiple categories.

Your packet should include information that relates to the category.

- Public Building Project: Over \$5 million/ Under \$5 million
- Private Building Project: Over \$5 million/ Under \$5 million
- Interior Project: Over \$5 million/ Under \$5 million
- Green Building Project: Over \$5 million/ Under \$5 million
